Complete Home Orchard with Combination Fruit Trees

(Regular Size Trees—Not Dwarfs)

Home owners and tree lovers will find a never ending source of interest in growing these "Combination" Fruit Trees. A single tree with three to five varieties of fruit, ripening over a long season, will produce fruit for every occasion. The "Combination" tree is very ornamental, too, with its display of contrasting colors, shapes and sizes of fruit and makes an ideal shade tree for the small yard. Quality Supreme—well shaped, branched at the proper height, and good, husky trees.

GALER

SOLD ONLY BY THE CARLTON NURSERY CO.

This new, high quality apple was developed in the famous Hood River Valley, right here in Oregon. We have observed and tested the fruit for several years, and knowing its many merits as a "Home Orchard" apple, we are eager that our friends and customers have this variety.

The apple resembles the Delicious—a richly colored apple—glowing yellow and bright red. The flavor is sweet, with enough acid to be satisfying to the taste. A superior cooking and pie apple. Tree is hardy, vigorous and produces heavily at an early age. Fruit keeps well with or without storage.

Prices: Each
Two Year No. 1, 4-5 ft. \$2.50

- ✓ **YELLOW NEWTOWN PIPPIN**—This stands high as a market and cooking variety. One of the best keepers known. Flesh rich, juicy and crisp.
- ✓ **RED SPITZENBERG**—Medium to large, deep red, spicy, crisp flavor, an old favorite, good cooking and eating. Fine keeper.
- ✓ **RED JONATHAN**—A solid red colored apple.
- ✓ **WINTER BANANA**—Large, clear waxy yellow with blush, fine tart flavor, good cooking and eating, crisp.
- ✓ **WINESAP**—Excellent keeping qualities. Dark red skin; juicy, sub-acid flavored flesh.
- ✓ **RED STAYMAN WINESAP**—New rich dark red Stayman. Heavy bearer, firm texture, delicious spicy flavor. Late keeper, good commercial and home apple.

Crab Apples

SUMMER VARIETIES

BARTLETT—A well-known favorite for eating fresh or canning. Large size, buttery, juicy and high flavored. August to September. See color illustration.

MAX RED BARTLETT

(Pat. No. 741)

Prices:	Each
Two Year No. 1, 4-5 ft.	\$2.50
Three Year Select, 5-6 ft.	\$3.50

The Red Bartlett pear, developed from a bud sport in the A. D. McKelvie orchard at Zillah, Washington. The quality, shape, and size of this new fruit is identical to that of the popular Bartlett, which has long been the favorite home and commercial canning pear. The new Red Bartlett has about 10% more sugar content than the regular Bartlett. The color is cherry-red after storage.

AUTUMN AND WINTER VARIETIES

BEURRE D'ANJOU—A fine pear; rather large; flesh yellowish white, rich and vinous flavored.

GOLDEN RUSSET (Bosc)—Large, deep yellow, russet colored and long neck. Half melting, juicy, delicious, with pleasant odor. Good shipper. September.

DOYENNE DU COMICE—Skin rich yellow at maturity, often lightly shaded with crimson. Flesh white, fine grained and melting, sweet and rich. Very good. October to November.

FLEMISH BEAUTY—Large fruit; pale yellow, becoming reddish brown at maturity. Flesh yellowish white and juicy. Excellent for canning. Late September.

WINTER NELIS—A delicious winter pear of medium size; flesh yellowish white, very juicy when ripe. One of the very finest for eating fresh. December to February.

Nectarines

Prices: Turn to Page 4

In growth, habit, treatment and soils precisely similar to peach. Valuable for dessert; smooth skin.

BOSTON—Medium; deep yellow, with a bright blush and deep mottlings of red; flesh yellow, sweet.

STANWICK—Extremely large fruit, skin pale green, shaded purplish red; flesh white and juicy, delicious.

New Parson SWEET ITALIAN PRUNE

(Pat. No. 872)

This new prune has been nurtured for several years under test conditions and has proven superior in many respects to other varieties. It is hardy against unfavorable weather conditions and bears at an early age. Because of the higher sugar content, additional sugar for cooking or canning is unnecessary. Fruit is ready for picking 10 to 12 days ahead of the Italian. Heavy bearing quality is noteworthy.

Prices:	Each
Two Year 5 to 6 feet, No. 1 Trees.	\$2.50

SOLD ONLY BY CARLTON NURSERY CO.

Plums

Prices: Turn to Page 4

SATSUMA—A very large and well flavored plum with blood red flesh; skin blush red; very small pit; vigorous and productive. A well known variety much in demand for home canning. July.

YELLOW EGG—August. A large, handsome yellow plum. Good for home use or market. Golden yellow covered with thick bloom. Flesh firm, sweet and juicy.

BEAUTY—The earliest Japanese plum. Fruit medium size, heart shaped, and crimson. The flavor is good. Tree productive; self-fertile.

BURBANK—Home orchard fruit of large size, almost round, yellow mottled with red. Flesh sweet and of good flavor. Ripens after Climax and before Santa Rosa.

CLIMAX—Large, heart shaped, cherry red fruit. Delicious juicy fruit ripens in mid-June. Tree bears heavily.

DAMSON—August-September. A tart plum very popular for culinary uses. Fruit small, roundish, dark purple with heavy bloom. Very productive.

DUARTE—Late. A blood-red plum. Fruit large and elongated. Flesh firm, deep red, and good quality.

GREENGAGE—A medium small greenish yellow plum of high quality. Midseason.

HOWARD MIRACLE (Pat. 721)—The finest. It rivals a peach in size, yet the seed is amazingly small. Firm amber flesh of the most superb flavor. August. \$2.00 each.

PEACH PLUM—Fruit large and earliest to ripen; regular, roundish; skin red, dotted with a blue bloom; flesh greenish yellow; tinged with red at maturity; a rich brisk flavor. Middle of July.

PLUMCOT—One of the earliest plums. Medium size, light crimson plum, wonderful flavor.

SANTA ROSA—Large; purplish crimson; flesh yellow, mottled crimson; very good quality. Excellent for all purposes. Early July.

Prunes

Prices: Turn to Page 4

COATES 14-18; DATE PRUNE—Sweeter, larger than French; fine for drying. Reddish purple, juicy.

HUNGARIAN—Largest size, beautiful bright red; one of the best for marketing; not good for drying. September.

ITALIAN (Fellenberg)—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety. September.

SUGAR—The earliest prune. Fruit medium to large, oval, dark purple. Flesh sweet, medium quality.

Peaches

Prices: Turn to Page 4

LISTED IN RIPENING ORDER

WESTERN PRIDE PEACH

Prices: Each
Two Year Select, 5-6 ft. \$2.50

This wonderful Peach is of our own origination. Fruit is of large size, highly colored. Flesh golden yellow, firm, deliciously flavored, entirely freestone. A consistent producer, bearing when other Peaches fail. Ripens following Rochester. One of the earliest good canning Peaches, practically fuzzless, excellent shipper. **Write for prices on 50 or more trees.**

- ↘ **FAIRHAVEN**—An outstanding new variety developed at the South Haven, Michigan, Experiment station. A very hardy and prolific bearer, yellow freestone.
- ↘ **SLAPPY**—Fruit yellow, good keeper; excellent flavor.
- ↘ **HALE HAVEN**—Extremely hardy peach, ripening between Rochester and Improved Elberta. This fine grained, firm, rich, golden fleshed freestone bears very heavy crops at an early age.
- ↘ **SULLIVAN'S EARLY ELBERTA**—A top quality early Elberta type peach, ripening 10 days before Improved Early Elberta. A yellow freestone.
- ↘ **IMPROVED EARLY ELBERTA**—This peach is the "Queen" of all canning peaches, and no doubt the biggest selling peach on the market. Fruit is a beautiful golden yellow, blending into a glorious deep pink on the sunny side; a strong protecting skin; exceptionally heavy bearer and a wonderful pollenizer for the J. H. Hale. Ripens about two weeks earlier than Elberta.
- ↘ **RIO OSO GEM** (U. S. Plant Patent No. 84). A splendid new peach that ripens during the period when there is no other peach on the market. **Rio Oso Gem** ripens five days after J. H. Hale, is more highly colored, finer grained in texture, firmer and of better quality than J. H. Hale.

Peaches—Continued

GIANT ELBERTA PEACH

SOLD ONLY BY CARLTON NURSERY CO.

The Giant Elberta Peach, developed from a seedling in an Elberta orchard. Hardy, fast growing, very prolific tree producing fruit at least one-third larger than the standard Elberta. Fruit is a deep yellow overlaid with brilliant red, perfectly freestone, flesh firm and finely textured. It ripens evenly on both sides at same time, and about 10 days earlier than the standard Elberta.

Prices: Each
Two Year Select, 5-6 ft. \$2.50

- ↘ **J. H. HALE**—Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm. Fruit ships exceedingly well; remains on the tree in a firm condition for a longer time than any other freestone. **The true type J. H. Hale.**
- ↘ **VETERAN**—A yellow freestone of Canadian origin. Fruit is large, round, ripens two weeks before Elberta.
- ↘ **ELBERTA**—Large yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific.

Blueberries CULTURE

An acid soil, rich in leaf mold and with an abundance of moisture throughout the growing season, is a necessity for successful blueberry culture. Peat bogs, alder bottoms, willow and cedar swamps, when cleared, make ideal locations for blueberries, as do upland soils containing a large amount of leaf mold, and a natural or artificial supply of water. The foliage resembles that of azaleas and the dainty pink flowers, borne in clusters, are ornamental. Plant in groups of two or more for purposes of cross-pollenization.

Thornless Youngberry

Superior to the parent thorny type to the extent that the hard punishing and annoying thorns are not present. In other respects there is little difference. Berries ripen a few days earlier.

Thornless Loganberry

This new berry has proven far more productive and the berries are larger than the old thorny type of Loganberry. A delightful, highly flavored berry of dark red color. The canes are large and entirely thornless.

Thornless Boysenberry

This thornless strain has retained all the good characteristics of its parent, including its rugged, thrifty growth and hardiness. You can handle these canes with your bare hands and enjoy picking the large, attractive fruits.

Cascade Blackberry

Prices: Same as Thornless Berries

A fine new blackberry introduced to bring the flavor quality of the wild plant into the home garden. It is a heavy yielder and unaffected by blight. Rich, sweet flavor, excellent for jellies and pies.

CASCADE BLACKBERRY

CONCORD GRAPE

Cane Berries

Prices:
Heavy No. 1 Plants.....\$.40 \$3.50

Loganberry

The fruit is large, long, an attractive red color, and although it is a little sour it is highly prized for jams and jellies and for mixing other berries in jams and preserves. The vines are trailing and grown on trellis.

Boysenberry

An immense new berry produced by crossing blackberries, raspberries, and Loganberries. The flavor is a very pleasing blend of these varieties. It has few and soft seeds. The Boysenberry produces heavy crops, bears young, and the fruiting season lasts two months.

Youngberry

The fruit is very large and very juicy, with a rich blended flavor that is pleasing to nearly everyone. The color so very dark red that it is nearly black and the seeds are few in number and soft. The vines are vigorous.

Important! WATERING EVERGREENS

Many plants are lost because of insufficient watering through the months of March and April, when spring rains appear to be enough but are shed off by tree and ball becomes dry.

Artificial watering is highly desirable. Soak the shrub—don't just sprinkle it. The most satisfactory way to water is to lay a hose under the plant and let the water run slowly until it rises to the ground level.

Flowering Trees

PURPLE-LEAVED FLOWERING PLUMS

Prices:	Each
5-6 ft., branched.....	\$2.75
6-8 ft., branched.....	\$3.50

Small growing, distinct ornamental trees used as specimens or grouped with other trees and shrubs in border or background. Their foliage produces beautiful tones of purple, very attractive where colored effects are desired.

Blireiana—Upright growth with bronze foliage. The blossoms, appearing early in April, are deep pink, double and fragrant. The shape and size resemble the Flowering Almond blooms. This is one of the best varieties. Twelve to fifteen feet at maturity.

Pissardi—Beautiful, purple foliage, retaining its color well through the season. It has attractive pale pink flowers in May. Edible fruit, excellent for jelly. Fifteen to twenty feet at maturity.

Vesuvius (Burbank's Purple Leaf Plum) (Thundercloud)—Foliage larger and more reddish than *Prunus Pissardi*. Flowers are slightly larger and later. A very brilliant decorative tree.

FLOWERING PEACHES

Prices:	Each
5-6 ft., branched.....	\$2.75

For an easily and quickly obtained mass of spring color, there is nothing to excel the Flowering Peaches. They will grow with the greatest ease anywhere and never fail to produce a great profusion of bloom. Not only are the trees a source of great admiration in the garden, but the trees enjoy having their branches cut for indoor use.

Double Red—Rich ruby-red. Very large blooms.

Double Pink—Large double pink. Strong grower.

ROSE TREE OF CHINA

FLORIBUNDA ROSES

Newest development in Rosedom. Gives your garden June-day appearance from spring until heavy frost. Superb in borders, among evergreens and perennials. Especially suitable for table decorations and corsages.

FASHION (Pat. No. 789) — Abundant double blooms of deep coral-peach borne in clusters. Blooms from spring until heavy frost. Especially suitable for table decorations and corsages. Bush strong, vigorous, up to 3 feet. Very desirable. **Each \$2.00.**

FLORADORA (Pat. Pending)—Geranium-red blooms freely produced all season on erect, symmetrical plants. Glossy foliage. **Each \$1.25.**

FRENSHAM — Large trusses of non-fading deep scarlet blooms on strong, bushy plants. **Each \$1.50.**

GOLDBLOCKS (Pat. No. 672)—Glorious sunshine yellow, finest of yellow floribundas. Buds open gracefully to many-petaled, showy blooms, produced continuously all season. Wild rose fragrance. **Each \$1.50.**

IMPROVED LAFAYETTE—Semi-double open blooms, deep glowing red suffused with crimson. The vigorous bushy plants grow about 2½ feet. **Each \$1.25.**

MA PERKINS (P.A.F.)—This new All-America selection for 1953 has charming buds, both singly and in clusters, all season. The cup-shaped flowers are light pink with yellow suffusion in the early stages, turning to soft coral pink as they age. Pungent fragrance, bushy growth. **Each \$2.25.**

PINOCCHIO (Pat. No. 404)—Rich salmon flushed with gold changing to soft clear pink as bloom develops. Exotic, fruity fragrance, ever-blooming, disease-resistant. **Each \$1.50.**

RED PINOCCHIO (Pat. No. 484)—Fragrant velvety-red version of the popular Pinocchio. **Each \$1.50.**

ROSE ELFE—Miniature flowers silvery rose-pink in color, produced continually throughout the summer. **Each \$1.25.**

VOGUE (Pat. No. 926)—Glowing cherry-coral flowers with a delicate Carnation scent. Hardy, vigorous plant; perfect for foundation plantings, border or hedges. **Each \$2.25.**

LILIBET (P.A.F.)—1954 Floribunda AARS Winner. Lilibet is a lovely shade of rose-pink to dawn-pink, bearing perfectly shaped baby buds, many on single stems to cut for small arrangements or corsages. When fully open it shows a cluster of yellow stamens. Bushy, nice foliage, medium height. Long succession of bloom. **Each \$2.50.**

FLORIBUNDA ROSES ALONG A WALK

BLAZE

CLIMBING ROSES

CLI. ALOHA (Pat. No. 948)—Coral pink buds open to deep rose pink blooms of enormous size. Blooms frequently throughout season. **Each \$2.50.**

CLI. BLAZE—The everblooming counterpart of Paul's Scarlet. Brilliant red blooms can stand full sun. **Each \$1.50.**

CITY OF YORK—Buff-yellow flowers open to creamy white blooms. Flowers abundantly. **Each \$1.50.**

HIGH NOON (Pat. No. 704)—Clear yellow buds on almost thornless stems, handsome, glossy foliage, blooms through the summer and fall. **Each \$2.25.**

CLI. ETOILE DE HOLLAND—Very satisfactory all-around red climbing rose. Deliciously fragrant. **Each \$1.50.**

CLI. KING MIDAS (Pat. No. 586)—A very fine double clear yellow. **Each \$2.00.**

CLI. CRIMSON GLORY (Pat. No. 736)—Large semi-double blooms of deep velvety-crimson, fragrant, lasting flowers. **Each \$2.00.**

CLI. MRS. E. P. THOM—Vigorous climbing rose covered with yellow buds and flowers, like the bush but more free-flowering. **Each \$1.50.**

CLI. NEW DAWN—Slightly fragrant blush-pink. Blooms throughout the season. **Each \$1.50.**

PAUL'S SCARLET—The most popular of all red climbing roses. Vivid scarlet flowers of large size produced in clusters. **Each \$1.50.**

CLIMBING PEACE (Plant Pat. No. 932)—The same fine foliage and strong stems as the bush rose with the same huge, perfectly formed flowers. The full deep yellow bud slowly opens to a glorious 5-inch bloom with shades of canary yellow, pale gold, cream, pearly white. **Each \$2.50.**

CLI. PRES. HOOVER—A glorious rose with blooms of blended cerise-pink, flame, scarlet and gold. **Each \$1.50.**

CARLTON NURSERY CO., FOREST GROVE, OREGON.

Our nurseries are located in the fertile Willamette Valley, and the best soils obtainable for the propagation of nursery stock have been selected for producing **Carlton trees**. Our Office, Warehouse and Sales Yards are located on Highway No. 6 (Portland-Forest Grove Highway), just 21 miles from downtown Portland. See map below.

The Broadest Guarantee Ever Made

We guarantee every plant, tree, or shrub that we ship out to be free from disease, true-to-name, and to arrive in perfect growing condition. If for any reason whatsoever, you are not satisfied that you have received 100 cents in value for every dollar sent us, we will refund your money. Our policy of "Every Customer a Satisfied Customer" means all that it implies, and we are here to give **ABSOLUTE SATISFACTION**.

We will replace, free of charge, trees and/or plants that fail to grow—providing, that the planter follows our Planting Instructions. Request for replacements should be made in July, and replacement trees will be shipped in the fall. Free replacements will not be made, where loss is due to reasons beyond our control, such as from rodent damage, breakage after planting, or from neglect in watering and care.

Facts About Carlton's Quality and Dependability

Every workman is especially trained for his work in growing, handling, grading or packing for shipment, and each operation receives personal supervision.

All Carlton trees are pruned, trained and shaped in the nursery row. Most varieties of Fruit trees are topped at the proper height for branching, thereby developing a uniform, branched top in the nursery row. We are the only nursery on the West Coast offering this high quality type of tree, which gives the planter the thrift of a yearling and the quality and size of a two-year tree.

All tree varieties are carefully marked in the field with true name and registration number. Field charts are carefully checked and recorded, and all registration numbers are available to the planter on request. Carlton trees are not only **true-to-name**, but the strains are better.

All crooked and inferior trees are discarded and only first quality trees are sold.

You'll Grow Better and More Fruit with Carlton Trees.

Information

PLANTING SEASON: Fall, Winter and Spring (6 to 8 months), are ideal for planting in the West. Deciduous trees and plants—November to May. Evergreens, Rhododendrons, etc., October to June.

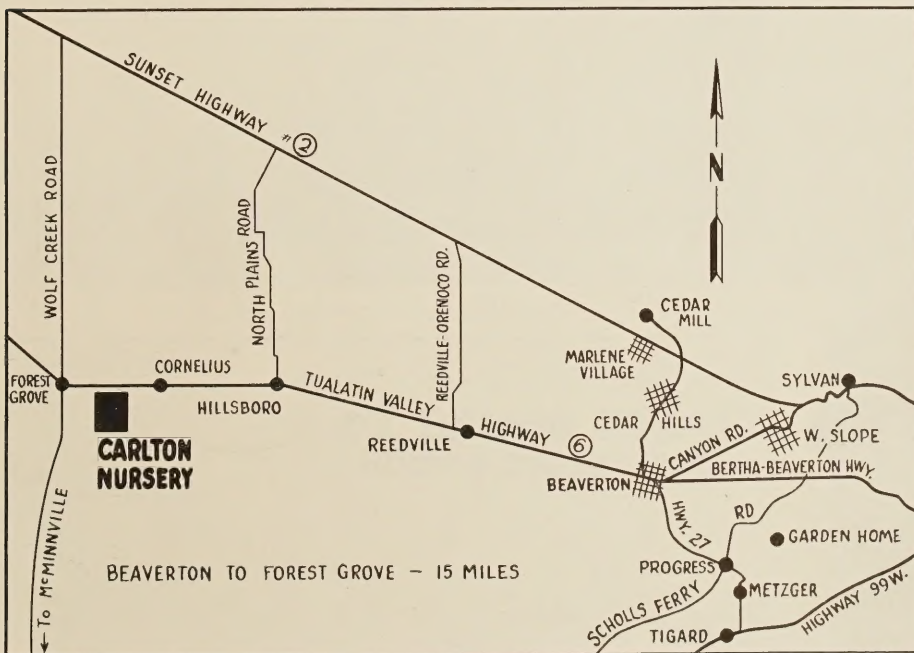

TIME TO ORDER: Orders are accepted any season of the year, for delivery at the proper planting time for your locality.

SHIPPING: Read Shipping Information below.

Parcel Post regulations limit the size of shipments which may be sent by mail. Roses, shrubs, small fruits, small orders of trees, etc., can usually be sent by mail. Most evergreens, etc., are necessarily sent by Express or Auto Freight.

SUBSTITUTION: Please state when ordering an assortment whether substitution will be allowed, as we feel at liberty, when no instructions accompany the order, to use similar or better varieties when we are out of the kinds named. Check the square Yes or No on the order blank.

TERMS OF PAYMENT: Customers will please forward cash with the order. If your order is over \$5.00 and is to be sent C.O.D., send 25% cash with the order.

Carlton trees are free of dangerous pests and diseases, and can be shipped into any State of the Union.

SHIPPING INFORMATION

No Charge for Packing. All orders are carefully packed to arrive at destination in perfect growing condition.

All Prices in This Catalog are F.O.B. the Nursery. We use the method of delivery which will be most economical and will give the greatest satisfaction for the customer. The customer pays the Express, Auto Freight or Freight charges at time of delivery from the Transportation Company.

For Your Convenience: If the package of Nursery Stock is small enough to be shipped by Parcel Post, we will pay the postage, and send the customer a bill for the exact amount. In this event, we will appreciate your cooperation in remitting the postage amount to us promptly.
